the interests of Raymond  
and district.

S. I. MAY Editor.

### GIVE IT A LIFT!

Everything is ready now for the actual organization and execution of the much talked of cheese factory for Raymond. You going to help? You can. You will. There is a real opportunity here to show our interest in our fellow citizen and neighbor and at the same time help ourselves.

We have used a lot of space boosting this enterprise, because in our opinion it is a business that will do more to stabilize our population and make us prosperous than almost any other industry we could start under existing circumstances. A dollar a day for milk doesn't sound very much, but it means the difference between paying cash for groceries and running a charge account, then not only the one who receives the dollar, but also his grocer is going to avoid a lot of headaches. It is not very pleasant either for the farmer or the grocer, to see a crop of grain being burned up when there is a year's groceries charged up against it, to say nothing of clothing, machine bills, and so on ad infinitum.

In districts where creameries or cheese factories are, people pay for their groceries and clothing when they get them.

The grocer as a turnover then in cash and his credit is better because of it. More cows create a market for more feed, provide a crop of calves, either for more milk or for veal, and furnish the feed for hogs, which represent real money when they are well fattened and put on the market in prime shape.

There are numerous reasons why everyone should lend their support to the Cheese Factory. If we are not in a position to give it a financial boost, we can at least lend our moral support, and give a pat on the back to the men who have been working for its establishment. Organized as a co-operative, none is taking any great chance and in face of conditions and the experience of recently opened Cheese Factories in the province, it looks like a sure bet for success. Let's give it a lift and help our community.

### BRITISH HUMOUR CAN'T BE SUPPRESSED

The following has been copied from an English Publication.

### WHAT TO DO IN CASE OF AN AIR RAID

1. As soon as bombs start dropping, run like hell. It doesn't matter where as long as you run. If you are inside a building run outside—if you are outside run inside.

2. Take advantage of opportunities afforded when air raid sirens sound the attack warning—for example:

A—If in a bakery, grab some pie or cake, etc.

B—If in a tavern, grab a bottle.

C—If in a movie, grab a

3. If you find an unexploded

### WEEKLY LETTER FOUR WEEDS TO BE WATCHED

In order to eradicate weeds it is necessary to know them. With this fact in mind it would not be amiss to describe four pernicious weeds that are gaining more prominence in Alberta from year to year.

**FIELD BINDWEED:** This weed is sometimes known as wild or small morning glory, and often confused with its close relative hedge bindweed.

Field bindweed has rather small, arrow-shaped leaves, a white or pinkish bell-shaped flower about one inch across, and has an extensive system of slender underground roots. It can be distinguished from hedge

bomb, always pick it up and shake it, the firing pin may be stuck.

4. If this doesn't work, place it in a furnace (The fire Dept. will come later and take care of things.)

5. If an incendiary bomb is found burning in a building, throw some gasoline on it. You can't put it out anyhow, so you might just as well have some fun.

6. Always get excited and holler bloody murder. It will add to the fun and confusion.

7. Drink heavily, eat onions, limburger, etc., before entering a crowded air raid shelter. This will make you unpopular with the crowd in your immediate vicinity, eliminating any unnecessary discomfort that would be more prevalent if people crowded too close.

8. If you should be the victim of a direct bomb hit, don't go to pieces—lie still and you won't be noticed.

9. Knock the air raid warden down if they start to tell you what to do. They always save the best seats for themselves and their friends anyway.

bindweed by two main features: the difference in size and color of the flower, and the position of the bracts on the flowering stems. The flowers of field bindweed are smaller than those of hedge bindweed and generally have a tinge of color. Hedge bindweed flowers are pure white. The flowering stems of hedge bindweed are clean the bracts being large and clasping the base of the flower, while those of field bindweed are small and situated about half way up the stalks.

**HOARY CRESS:** There are three types of hoary cress or white top. These are distinguished by the shape of their pods, and their common names are descriptive of the pod shapes. They are: lens-podded, heart-podded and globe-podded. The first two

are sometimes referred to as broad-leaved hoary cress, the last mentioned is often called narrow-leaved hoary cress. The young shoots of all varieties are a dull green and unite downy or hoary. The plants grow to a height of 6 to 18 inches and when in bloom are very showy with a mass of pure white flowers. Under some conditions, when in bloom it closely resembles stinkweed, but can be distinguished easily by its underground running roots.

**LEAFY SPURGE:** Leafy spurge, while not widely spread in Alberta at the present time, is well established in certain localized areas.

It grows to a height of one to two feet or more, with upright stems, possessing numerous narrow leaves. The leaves and stems when broken, exude a milky white material much as the dandelion and sow thistle. The roots are extremely woody and covered with a reddish bark. The flowers are inconspicuous, but the broad flat bracts surrounding the flowers are yellowish in color, and so a patch or leafy spurge, when viewed from a distance appears to be covered

## Locker Storage

IT HAS BEEN NOTED THAT THERE ARE NUMEROUS PEOPLE IN THE DISTRICT WHO DESIRE COLD STORAGE LOCKERS INCORPORATED WITH THE CHEESE FACTORY.

PROVIDING SUFFICIENT LOCKERS ARE CONTRACTED AND ONE YEAR'S RENTAL RECEIVED, WITHIN THE NEXT THREE WEEKS, THIS DESIRABLE FEATURE WILL BE INCLUDED WITH THE ORIGINAL PLANS.

ARRANGEMENTS MAY BE MADE WITH ALVIN W. JONES AT THE BAKERY, ERNEST JENSEN AT THE TREASURY BRANCH, OR AT THE RECORDER OFFICE.

## The Provisional Factory Committee

with numerous yellow flowers.

**RUSSIAN KNAPWEED:** Russian Knapweed grows 1 to 2½ feet high or more, and is dull green in color, due to white hairs present on stems and leaves. One of the distinguishing characters is the almost black scale-like sheath of tissue surrounding the roots. The lower leaves are 3 to 4 inches long with cut margins, while the upper leaves are shorter and much narrower.

Knapweed has small purplish flowers which look not unlike those of Canada thistle, though they are a little smaller. The flower buds are similar in appearance to those of bachelor's button a close relative of Russian Knapweed.

The fore-mentioned weeds are capable of causing very serious trouble, and can be costly to the farmer in loss of crop and added expense of control and eradication. The sooner an infestation is spotted and the work of eradication begun, the less damage will result.

If any of these weeds are suspected to be on your farm, you would be well advised to make a sure of their identity. The Weed Inspector in your district can

identify these weeds for you or you may send specimens to your nearest Experimental Station.

Fielding Thomas of Cardston was a Raymond visitor on Thursday.

# SUGAR RATION

Now **1 1/2 LB.** PER WEEK PER PERSON

Since sugar rationing was first introduced, the shipping situation has become more serious. The danger to ships and lives has increased. Consequently it has now become necessary to reduce the sugar ration from ¾ lb. to ½ lb. per week per person. Only persons in areas remote from source of supply are permitted to have more than two weeks' supply on hand at any time.

### SUGAR FOR PRESERVING

Special provision is made for additional quantities of sugar for home preserving and canning.

In addition to your ration, you may purchase ½ lb. of sugar for every pound of fruit that you preserve or can, and ¾ lb. of sugar for every pound of fruit made into jam or jelly.

Every person who buys sugar for canning or preserving is required to keep an accurate record of the sugar purchased for this purpose. If any sugar remains after canning and preserving, it shall form part of the regular ration of ½ lb. per person per week.

Loyal Canadians will be glad of this new opportunity to do their part to ensure Victory.

**THINK! BEFORE YOU USE SO MUCH**

# TEA AND COFFEE ARE RATIONED

## Ships and lives must be conserved

To bring tea from Ceylon and India, to bring coffee from South America, ships must cross oceans infested with submarines. Today those ships and their naval escorts are required for more essential services. Every ship, every foot of cargo space, is needed to carry war materials, and to bring essential goods to Canada.

So Canadians must now reduce their consumption of tea and coffee. You must reduce your normal consumption of tea by at least a half. You must reduce your normal consumption of coffee by at least one fourth. These reductions are absolutely necessary.

### TEA CONSUMPTION MUST BE CUT AT LEAST IN HALF

### COFFEE CONSUMPTION MUST BE CUT AT LEAST ONE FOURTH

### THIS IS THE LAW

You must not buy more than 2 weeks' supply of tea or coffee for yourself and household in any one week.

You must not make further purchases of tea or coffee at any time when you have two weeks' supply on hand at the reduced ration. (Exception: those in areas remote from supply.)

Retailers have the right to limit or refuse customers' orders if they suspect the law is not being kept. Retailers must not have on hand more than one month's supply of tea and coffee, whether packaged or bulk.

There are heavy penalties for violations of this law.

## Have You The Cash To Pay For Next Winter's Coal Now?

If not, discuss the question of  
a personal loan for the purpose  
with our nearest branch manager.

Many patriotic citizens are buying next winter's coal now,  
following the suggestion of the Coal Administrator, who  
has urged early ordering of fuel because of the transporta-  
tion difficulties with which Canada will be faced in the  
months ahead.

Delayed or reduced deliveries may occur if orders for coal  
are not placed in good time.

If you are without the ready cash, our personal loan service,  
available at any of our branches, may be of real help to  
you, and our local manager will welcome the opportunity  
of discussing your requirements in confidence.

### NEWS NOTES

Jack Hervey is suffering from an attack of asthma. He is carrying on his work but he is not feeling very good.

Dr. and Mrs. Madill were in Calgary over the weekend where they bid good-bye to Bob Johnson prior to his departure for eastern Canada for final training and then overseas. Bob is finishing up his training now as an air gunner.

The Hon. and Mrs. Solon E. Low were Raymond visitors Sunday, going to the Temple Monday where they met the other Edmonton people. Mr. Low conversed with several delegations while he was here on government matters.

Jos. Menyes, aged Hungarian passed away Sunday from heart trouble and was buried from the local Hungarian Hall Tuesday afternoon. He was not ill very long the attack taking him off quite suddenly. He lived with another Hungarian gentleman north of the Fred Cook home and as far as we know had no family at least not in this district. He was an uncle of George Antol.

Special sessions were held at the Temple on Monday when people from the Lethbridge and Taylor Stakes and also some from the Alberta Stake gathered for the day. Two companies went through with 105 in the first and 135 in the second. The rain, which was heavier farther west, made the roads really heavy and some of the cars went into the ditch. It took one party three and a half hours to get home.

## REGISTRATION OF UNEMPLOYED MEN

### WHO MUST REGISTER

Every man between the ages of 16 and 69 who is unemployed or who will not be gainfully occupied after May 31, 1942, must register. The following are excepted: Full-time students, or those confined in an asylum, or a prison, or hospital or home for the aged and infirm, or are subject to the provisions of the Essential Work (Scientific and Technical Personnel) Regulations, 1942.

### WHEN TO REGISTER

If you have not already registered at an Employment and Claims Office of the Unemployment Insurance Commission within the last two weeks, or have not obtained work, you are required to register within the week of June 1st, 1942, or within one week after becoming unemployed or not gainfully occupied at any time after May 31st, 1942.

### WHERE TO REGISTER

1. At an Employment and Claims Office of the Unemployment Insurance Commission, if you live in, or within five miles of, a city or town in which there is such an office; or
2. At the nearest Post Office, if you do not live in, or within five miles of, a city or town in which there is an Employment and Claims Office.

### RENEWAL

You must renew your registration at least every two weeks if you remain unemployed.

By Authority of Order-in-Council P.C.1445 of March 2nd, 1942.

HUMPHREY MITCHELL  
Minister of Labour.

**RAYMOND**

*"Hitler's not going  
to teach my  
children!"*

"I've read how Hitler starts training his killers when they're toddlers. So I reckon it's up to me and every other Canadian mother to train our children to realize that they've got to pay for their freedom!"

"That's why I see to it that all my children buy War Savings Stamps every week. I tell them what freedom means—what the grown-ups are fighting for—that it's for them! So they've got to give up something too—and the money—\$5.00 back for every \$4.00 saved now—will come in mighty handy—when they start out on their own!"

Buy War Savings Stamps from banks, post offices, druggists, grocers and other retail stores.

National War Finance Committee.
